

## PRESIDENT'S MESSAGE

### Seattle Chapter's Annual Golf Event Another Great Success

The real measure of the success of this event is that, through your generosity, the **Sander Abrams Scholarship** fund for students in the **UW Facilities Management Certificate Program** and the **Washington**

**Special Olympics** will both benefit. We've selected these organizations as our Education and Community Partners and it's our privilege to help their respective missions. Our thanks to all who participated, the terrific Golf Event committee under the leadership of **Dan Maus** and our Associate Member sponsors for their generous support of this worthy event.

### TomorrowSpace Returns

Last year's look into the future of facility design was held at Anderson Consulting in the new Opus Center and was very well attended. This year, we will again look through the eyes of other professionals in E-Business Technology, Office Space Design and Environmental Design at the trends and directions that our profession is headed. The event will be held at the General Services Administration offices in Auburn. Our thanks to **Ross Buffington** and the GSA for hosting this event.

### Looking forward . . .

To the Energy Panel in October  
To this year's TomorrowSpace special event in November  
To this year's Holiday Event in December  
To the Educational Symposium in February

Regards,
